

## SDS PRODUCT INFORMATION

OSHA Regulations 29 CFR 1910.1200 exempts "Articles" from the requirements of Safety Data Sheets (SDS) and Labeling. "Article" means a manufactured item: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which does not release, or otherwise result in exposure to, a hazardous chemical under normal conditions of use. Most MM Systems products meet the definition of "Article" under normal installation, operation, and use, and therefore are exempt from SDS requirements.

### **MM Systems Products Exempt from SDS Requirements:**

Any MM products not listed below as requiring an SDS are considered "Articles" and are exempt from Hazard Communication requirements. Therefore, no SDS is necessary or available.

Note: If any burning, welding, or grinding is to take place on any products considered an "Article", please contact MM Systems at 706-824-7500 / +1 706-824-7500.

### **MM Systems Products Requiring an SDS:**

An SDS is provided with every shipment of the products listed below. Additional SDS copies are available at [www.mm.systems](http://www.mm.systems).

- AID, GID, SID Series
- ASB & ASM Series
- EBS Series
- EIF Series
- EIS Series
- EMS & EMC Series
- ERS Series
- ESS Series
- HSC Series
- IVB Series
- LMS & LSS Series
- LOKCRETE Elastomeric Concrete
- Lok-Poxy
- Gel-Poxy
- PPT Series
- SHD & SHS Series
- SIF Series
- SMS Series
- Splice Kits
- SSP, STS, SSS & SNB Series
- Pyro-Flex™ Fire Barriers
- Touch-up Paint for Kynar/Hylar Finishes
